Testimony of Lieut. Lieper, 'Lieut. Commander Schuetz, Lieut. Grant and Lieutenant Holden.

WASHINGTON, Oct. 10 .- Just before the Schley court of inquiry adjourned to-day Judge Advocate Lemly introduced Lieut. J. H. Holden, formerly watch officer on the Scorpion as a witness. Lieutenant Holden signed the entry in the Scorpion's log, giving the particulars of the receipt of a message for Commodore Schley from the Eagle which that vessel had brough! from Captain McCalla on May 19, 1898, when the flying squadron, then bound for Clenfuegos, fell in with Captain McCalla's sub-squadron, which had just left that port. The government had sought to show that by this message Commodore Schley had been notified that the Spanish fleet was not in the harbor of Clenfuegos, and Lieuteaunt Commander Southerland, of the Eagle, had testified that he had megaphoned to the Scorpion that there were only a torpedo boat and several cannonteres in that harbor. Captain Lemiy told the court today that the log of the Scorpion did not show the receipt of the message in this form. Other witnesses of the day were Lieutenant Commander W. H. Schuetz, who served on the Iowa, and Lieut. A W. Grant, who was on the Massachusetts, who testified concerning the general campaign of the flying squadron.

that he is 'interested.' "Ninth-It is true that the attacks on Admiral Sampson have been made covertly and under the name of argument, but the publicly; they have been given great currency and they are embodied in the record to remain forever on the files of the Navy Department. It is at least worthy of comment that on every occasion in which such an argument has been indulged in the question at issue has been voluntarily withdrawn, after full opportunity had been

taken to accuse the admiral. "Tenth-Were we alone in our opinion that these arguments are improper, we should hesitate to make such statements, but the judicial officer of the court, the judge advocate, has repeatedly characterfred these arguments as improper.

My first objection was that the chart was inaccurate; that the position of the Iowa as platted on this chart gave her too much speed. In order to keep the Iowa in relative position to the other ships for certain distances she approximately appeared to be making eighteen knots when she was making nine to ten. Another objection I had was the initial position of the Brooklyn when the Spaniards first left the harbor. I contended that the Brooklyn's position was too close to the mouth of the harbor; that she was not in her regular position. She was south of it. I based that opinion upon the fact that when I first discovered the Spaniards coming out of the harbor I looked over toward the other ships on our left and the Brooklyn was very nearly abeam of the
